

Travel Smart: Tips for Your Trip

Flying

***World Classrooms' trips are fun - no doubt about it!
But there's one place especially where we need to be serious: the airport!***

When we are traveling through airports and on airplanes, please remember to never joke around about weapons or security threats. Your safety is our first priority. Following the rules will help get everyone get onboard without issues or problems.

Bring Your ID

All passengers age 18 or older are required by the Transportation Security Administration (TSA) to show a valid picture identification to pass through security. While not required for younger passengers, we do highly recommend everyone on the trip brings along an ID card.

Acceptable forms of identification include:

- » Valid Driver's License
- » School issued photo ID
- » State issued photo ID
- » Tribal issued photo ID
- » U.S. Passport
- » U.S. Permanent resident card

Basic Security Rules

- » Absolutely no weapons of any type are allowed, not even toy weapons (squirt guns, etc.).
- » There is absolutely no joking or horseplay allowed while going through security! Please be on your very best behavior.

Passing Through the Security Checkpoint

All liquids must be placed in the security screening bin. You may also need to place your electronic devices (cell phone, iPad/tablet, laptop, etc) in a separate bin, so please have these items accessible and ready to pull out if requested. You

will also be asked to remove your shoes and any large, metal accessories (heavy belts, bangle bracelets, etc.) and place them in a bin. Avoiding large accessories and wearing shoes you can easily slip on and off is advised.

TSA 3-1-1 Liquids Rule

You are allowed to bring one small bag of liquids, aerosols, gels, creams and pastes with you through the airport security checkpoint. These are limited to 3.4 ounces or less per container. Consolidating these containers into one small bag and packing the bag in an easily accessible place in your backpack or carry-on will make help your security line go quicker.

3-1-1 is an easy way to remember the limits:

- » **3.6 Ounces:**
Liquids, gels, aerosols, creams and pastes must be 3.4 ounces (100ml) or less per container.
- » **1 Quart:**
Liquids must all be placed in a 1 quart-sized, clear, plastic, zip-top bag.
- » **1 Bag:**
1 bag of liquids/gels is allowed per passenger.

On the Other Side

Once you have cleared security, you may want to buy a drink or fill up a water bottle to have with you on the plane. Now is also a great time to buy a snack if you did not bring one from home.
